

Growth, Distribution and Wage Policy

Outline

This terms self-organized course will cover the topics growth, distribution and wage policy from a heterodox perspective. The lecturers are Marc Lavoie, Thomas Theobald (unfortunately Till van Treek is tied up with business), Stefan Ederer and Engelbert Stockhammer. The course provides an in-depth analysis of recent publications within these fields. A detailed description of each session will follow.

Date	Lecturer	Topic	Time and lecture hall
October 11th, 2012	Katarina Hollan, Christoph Scheuch	Introduction	4-6p.m., Elise Richter-Saal
October 24th, 2012	Marc Lavoie	Overview & Instability puzzles	10-12 a.m., HS 47

Assessment

Students are required to read publications selected by the lecturers and answer questions related to them. These have to be handed in at the beginning of each session (i.e. 4 sets of questions) to ensure an adequate discussion of the topics. In addition, each student has to write a short paper (around 10 pages) on a topic related to the lecture. Deadline for submission of the paper is February 8th 2013.
